Caps for cold weather, fur lined and warm. **\$1.00**  
A great range to choose from.

Men's Woollen Underwear, in every weave and at prices that range from  
**\$1.75 to \$7.50**  
per suit

**LEQUIME BROS. & CO.**

KELOWNA, B. C.

### CITY COUNCIL

#### G.P.R. Withdraws Tax Appeal

A meeting of the City Council was held on Saturday, with Mayor Jones and Aldermen Sutherland, Raymer, Blackwood and Taylor in attendance.

Ald. Sutherland remarked with regard to the soil excavated during the construction of new buildings being left on the lane on the north side of Bernard Ave., between Water St. and the K. S. M. office, that he had never been approached by anyone with regard to the disposal of it and had never given any person authority to order that the soil be not removed. He certainly was not responsible for the present obstruction in the lane, and he was speaking at some length, because it was getting to be a habit with some people to shoulder the blame of many "mix-ups" on members of the City Council, when the Mayor or aldermen had nothing to do with the matter.

A letter was received from the G. P. R. Co., withdrawing its appeal against the City's assessment of its property in the municipality.

A letter from the Canadian General Electric Co., in reference to the delay in forwarding electrical supplies, was filed.

An account from the Graphic Arts Co. for the address presented to H. R. H. the Duke of Connaught, caused a little discussion, as it was larger than agreed upon. It was decided to remit the original price of \$75.00.

A letter was received from Mr. A. Wilson requesting the Council to cut off his lawn water service for the winter months.

The Clerk informed the Council that Mr. Wilson had paid the minimum monthly charge only as there were no water meters on hand when this connection was made.

Ald. Sutherland suggested that it might be advisable to increase the fees for connection with the light and water service, as the present fees only covered the actual cost of making such connections.

The Mayor drew the attention of the Council to the number of gasoline engines being purchased for pumping purposes by the sewerage constructors.

Ald. Sutherland said that electric motors would be cheaper and the City could supply the "juice," but the motors might require more care and protection than the gasoline engines.

Ald. Taylor remarked that he had consulted the engineers on the subject, and they stated that the gasoline engines were best for the work, several being purchased second-hand; and also that they would bring a better price in proportion to their cost than would be secured for the electric motors, if the City wished to dispose of them in the future.

Ald. Copeland was requested to interview Mr. Bigger, whose term as Building Inspector has been completed, and see if he would continue for another year.

Ald. Sutherland reported that the new electric generator to replace the defective one purchased from the Canadian Westinghouse Co. had arrived.

Ald. Raymer reported that the City water on Richter St. services was in bad condition at present. He thought it would be a good plan to run a large volume of water through the pipes and clear them out.

Ald. Sutherland replied that the new six-inch pipe, which replaced the old four-inch pipe, gave the water the flavour commented on by Ald. Raymer. The Light and Water Committee had decided to connect the Richter St. and Cawston Ave. water mains, which would greatly improve the "circulation."

The Mayor reported that he would be away from the City for a week or ten days and suggested the appointment of an acting mayor.

Ald. Raymer was thereupon appointed Acting Mayor, on motion of Aldermen Taylor and Blackwood.

The following accounts were then considered and passed for payment by the Finance Committee:

Sewer construction time checks:  
J. Hunford.....\$ 18 27  
W. Gibson.....21 33  
J. Ottavi.....39 67

### RIFLE ASSOCIATION

#### Practice Shoot

The weather on Thursday was not at all favourable for shooting, as a strong and very gusty breeze blew across the range until sunset and the light was dull. Half a dozen members turned out, however, and made the best of the conditions. Owing to the shortening days, firing was begun at the 600 and the last men to shoot at 200 were handicapped considerably by the fading light at 5 p.m. The strong wind necessitating an allowance of as much as 5 feet left of the target—brought down the scores at 600, and Mr. T. Allan was the only man to reach the 90's, retrieving his loss of points at 600 by very steady shooting at the other ranges.

### VANCOUVER BOARD OF TRADE

#### Will Visit Kelowna

Mr. W. A. Blair, secretary of the Vancouver Board of Trade, has completed arrangements for the charter of the steamer Aberdeen, which will carry the members of the Board's excursion on Okanagan Lake from Okanagan Landing to Penticton and return.

The vessel will be at the orders of the Board and will stop at Kelowna and Summerland en route to Penticton, giving the passengers ample time to see everything in those two energetic towns, arriving in Penticton late in the afternoon. The vessel will make the run back at night. She has sleeping accommodation to take care of everybody in the party.

The excursion will leave Vancouver next Tuesday night in one or more special cars, being due to arrive at Vernon at noon the following day. At Vernon the party will attend the apple show and in the evening there will be a special meeting with the fruit growers' association of the valley. A very large number of the Vancouver fruit men have signified their intention of making the trip. It is proposed to take advantage of the opportunity to permit the growers of the fruit and the merchants who handle it to get together. Thursday (today) the excursion will proceed down the lake. —"Daily News-Advertiser."

By the score of 3 to 2, the Boston Red Sox defeated the New York Giants on Thursday for the baseball championship of the world, it being the deciding game of a most strenuous series. The Giants practically had the game won in the ninth inning, but a chain of errors reversed the situation. Their pitcher, Mathewson, played one of the best games of his whole career but was accorded poor support. The star of the series is Herzog, the Giants' sterling third baseman. He outplayed, outbatted and outscored all the others, fighting his way through the eight games without an error. "Red" Murray is next in line. On form the Boston stars are Yerkes, Stahl and Hooper. Summed up, it was a series which included the wildest mixture of brilliant and wretched playing, impossible catches and easy chances marred, wonderful and bush league pitching, desperate and dumb work on the bases—a veritable swirl of all that goes to make up baseball from every angle of the game.

### FRUIT NOTES

#### Jonathans for the Argentine

At last week's meeting of the Board of Trade a letter was read from the Canadian Trade Commissioner at Buenos Ayres, Argentine Republic, pointing out the high prices obtainable in the Argentine, Brazil and Uruguay for choice apples and suggesting a trial shipment. Discussing the letter, Mr. Pritchard stated that there were great difficulties in the way of entering the South American market, as the fruit would have to be shipped by a lengthy and circuitous route via New York and Liverpool, owing to the available cold storage accommodation by direct steamers from New York having been booked for the winter months for several years in advance. It is a pity such obstacles block the way of what might be a very valuable market for Kelowna fruit, a market which is being enjoyed at present by our Wenatchee neighbours, who shipped a few days ago a trainload of 33 cars of Jonathan apples, containing over 24,000 boxes, to New York, 25 of the cars being destined for Buenos Ayres.

#### Wenatchee Fruit Crop

The apple crop in the Wenatchee valley this year is the largest in its history, and is estimated at approximately 3,500 carloads, or 2,000,000 boxes.

#### The Vancouver Market

Discussing the reasons why American fruit has obtained such a foothold in the Coast markets, Mr. Thos. Cunningham, Chief Fruit Pest Inspector, is quoted in the "Fruit Magazine" as blaming the high freight rates and faulty system of distribution. He said:

"The foreign fruit grower seems to have got control of the Vancouver market, which is the best cash market on the Pacific Coast. There was more fruit shipped in this year than last and more than the year before, which shows that the consumption of foreign fruit is on the increase. Unfortunately the same cannot be said of the home-grown article. The explanation is not in the inferiority of our own fruit, because in exhibition tests either in the United States or in the Mother country, British Columbia fruit generally carries off the bulk of the prizes. No, the fault lies in the high freight rates and the faulty system of distribution. The question is one that should be looked into. The local fruit grower, given equal conditions, can hold his own with any competitor, but he is not given a fair chance by any means."

"The production of small fruits in this province has gone behind. Vancouver Island produced more strawberries seven years ago than it does today, and yet it has the best strawberry soil in the world. Why is this? Unfair transportation rates, lack of co-operation between growers, and poor delivery. It costs more to bring fruit from Vernon than it does from across the border in Wenatchee. This is discrimination. Cheaper transportation, quicker delivery and more co-operation will go far to improve the situation."

#### Another American Wholesale Firm

The control of the wholesale fruit trade on the prairies held by American houses has been further strengthened by the sale of the old-established business of the MacPherson Fruit Company, organised in Winnipeg in 1888, to Nash Bros., of Grand Forks, North Dakota. It was understood that the business had changed hands, and that Mr. R. R. Scott, who for many years has been its active manager, was the buyer. The new firm is known as the Scott Fruit Company, Ltd., but it is stated, however, that Nash Bros. are the real purchasers. As in addition to the headquarters at

Legal and Municipal Advertising—First insertion, 12c  
per line; each subsequent insertion, 8c per  
line.  
Reading Notices following Local News—Published un-  
der heading "Business Locals," 3c per word,  
first insertion; 2c per word, each subsequent  
insertion. Minimum Charge: first insertion, 50c;  
each subsequent insertion, 25c.  
Transient and Contract Advertisements—Rates ac-  
cording to size of space taken.

Contract advertisers will please notice that all  
changes of advertisements must be handed  
to the printer by Tuesday noon, otherwise  
they cannot be inserted in the current week's  
issue.

THURSDAY, OCTOBER 24, 1912

## COMMUNICATION

## Fruit Prices

Kelowna, Oct. 22, 1912.  
To the Editor,  
Kelowna Courier.

Dear Sir,  
Permit me to express my deep  
regret, which is probably shared by  
nearly every fruit grower in this  
district, that, owing to the hour of  
the meeting being so close to that  
of publication of the "Courier," the  
discussion which was raised by Mr.  
Parkinson at the last meeting of  
the Board of Trade here, concerning  
the market prices of fruit, was not  
reported by you in full. This is a  
question of vital importance to own-  
ers of orchards, and I venture to  
suggest of deeper interest to a  
large majority of your subscribers  
than applications to the Town  
Council for further suburban side-  
walks or protests against obstructions  
in obscure back-lanes.

At the present time the prices  
given for orchard produce are so  
low that I believe it no exaggeration  
to state that with the cost of labour  
and of food stuffs higher than ever,  
it is almost if not quite impossible  
(pace a recent correspondent to the  
"Field," Aug. 10) to make a living  
by growing fruit. There can be no  
doubt that this state of affairs, if  
unremedied, will have a very depres-  
sing effect on the real estate market,  
so far at least as orchard lands are  
concerned, and it is therefore obvi-  
ously to the interest of real estate  
brokers to earnestly co-operate with  
growers in their endeavour to find  
that remedy.

We all know that huge crops of  
most excellent fruit can be and are  
produced, and if these could be  
profitably disposed of, all would go  
merry as a marriage-bell. I am  
quite prepared to be told again, as  
I have been told before ad nauseam,  
that the profits netted by the pack-  
ing and shipping firms are really  
insignificant and that the whole  
trouble is due to the heavy dump-  
ing of American fruit within our  
borders. If that be so, then surely  
it is "up to" the Board of Trade to  
memorialize the Government to put  
a stop to said dumping by a simple  
device not unknown nor usually dis-  
tasteful to Conservative statesmen,  
thus extending to the struggling  
settlers in this Province that pro-  
tection which has so long been be-  
stowed on the less needy manufac-  
turers in Eastern Canada.

The gentlemen who are good  
enough to buy our produce protest  
with every semblance of sincerity,  
almost with tears, that they desire  
nothing more earnestly than to pay  
us better than they do, but alas!  
they are our fellow-sufferers and  
powerless against American com-  
petition. If, then, their solicitude  
be genuine and their own case as  
hard as they would have us believe,  
let them prove it by using their  
great influence in agitating for a  
prohibitive tariff.

The current issue of the Cana-  
dian Horticulturist on p. 248 draws  
attention to the dissatisfaction of  
fruit growers in the Penticton dis-  
trict in a paragraph from which  
the following sentence is quoted—  
"The opinion is expressed that a  
co-operative organization would save  
money for the growers." Ver-  
sap.

May I then be permitted to ex-  
press a pious hope that the Kelowna

## MISSION CREEK

## Temporary Work to be Discontinued

Mr. G. A. Fisher, Secretary of  
the Board of Trade, has received  
the following letter, which is self-  
explanatory:

"Public Works  
Engineer's Office,  
Victoria, Oct. 10th, 1912.

"To the Secretary,  
"Board of Trade,  
"Kelowna, B. C.

"Dear Sir,  
"Adverting to my letter of the  
27th July, I beg to advise that the  
Department cannot undertake this  
work unless some effort is  
made by those interested in making  
these repairs permanent.

"It is considered that there is  
nothing to be gained by continuing  
the temporary cribbing and mat-  
tressing which the Department has  
been undertaking from time to  
time.

"Yours obediently,  
"J. E. GRIFFITH,  
"Public Works Engineer."

While the letter is vague as to  
what course should be pursued by  
those interested in order to make  
any work of a permanent nature, it  
is clear enough that the Government  
is to abandon the annual patching  
which has served to control Mission  
Creek during spring freshets for  
several years past, and it will be-  
come necessary for the settlers along  
the Creek to form some organization,  
presumably under the "Dyking  
Act," for self-protection.

Perhaps it is harping on a well-  
worn text, but the present position  
of affairs with regard to Mission  
Creek once more forcibly illustrates  
the advantages of municipal govern-  
ment, under which this problem  
could be energetically tackled once  
and for all with the local knowledge  
derived from years of experience  
in dealing with the creek. With  
Penticton, Summerland, Peachland  
and Coldstream enjoying the powers  
of self-government, it is a reflec-  
tion on the progressiveness of the  
Mission valley that its inhabitants  
should continue to be content to  
hang to the apron-strings of the  
Government, begging as avowed the  
things which they should be able to  
carry out on their own initiative.

But, municipality or no, the prob-  
lem of Mission Creek remains to be  
dealt with, and any work of a tem-  
porary nature, pending a permanent  
scheme, should be undertaken before  
winter interferences, as the time avail-  
able in the spring before melt-water  
is too limited to do much to ad-  
vantage. As Kelowna is also deeply  
interested in the question, any  
action taken should be in co-opera-  
tion with the municipal authorities,  
and possibly some equitable arrange-  
ment can be arrived at of sharing  
the cost according to the pr-pro-  
portionate benefit.

Frederick K. Burnham of New  
York, big game hunter, and Mrs.  
Burnham, have arrived in San Fran-  
cisco with trophies of a forty-three  
days' hunt in the Cassiar district of  
British Columbia. Their bag con-  
sisted of six caribou, four black  
mountain sheep, two moose, one  
goat and seventeen bears. Burn-  
ham has an international reputation  
as a hunter and scout and served in  
the Boer war on Lord Roberts'   
scouting corps, doing some bril-  
liant work and becoming known  
throughout the Transvaal as "Burn-  
ham the Scout."

Board of Trade may see fit to fur-  
ther consider the question raised by  
Mr. Parkinson, to invite full dis-  
cussion, and make a serious endeav-  
our to better the conditions. For  
these conditions are becoming wide-  
ly known and are no longer merely  
whispered in the closet, and it is  
a short-sighted policy to try to  
stifle discussion and prevent such  
searching enquiry as might lead to  
reform. A better fruit market  
would be an advantage to everyone  
who has a dollar invested in this  
district. The main function of a  
Board of Trade is, I presume, to  
protect and further the commerce of  
the town, which in this case de-  
pends mainly on the orchard indus-  
try.

Let us then all, both in town and  
country, realize that it is far better  
for the immediate and ultimate pros-  
perity of Kelowna and district to  
face the situation openly, to admit  
and endeavour to remedy the evil,  
either by state-aid or by self-help,  
rather than to ignore, deny or hide  
the truth which "is great and will  
prevail."

I am, Sir, with thanks,  
Yours, etc.,  
CO-OPERATION.

## FINAL SHOOT

## Of the Rifle Association

Weather permitting, the final shoot  
of the Rifle Association for the present  
season will be held on Monday next,  
Thanksgiving Day. It is the intention  
to shoot twice over the ranges, morning  
and afternoon, and, in order to take  
advantage of the available light, firing  
will commence at the 200 yards range  
at 9.30 a. m. A rig will leave the  
"Courier" office at 9 a. m. All those  
intending to participate should advise  
the Captain by Saturday noon at latest,  
so that the necessary arrangements  
can be made.

Some prizes have been promised and  
more can be secured if members pledge  
themselves to turn out in sufficient  
number. Many of those who were keen  
in former years have failed to fire a  
single shot on the range this season,  
and the result is that the life of the  
Association hangs by a thread, as it  
depends entirely upon the disposition  
of the Militia Department, merciful  
or otherwise, whether it is disbanded be-  
fore next spring. Thanksgiving Day  
offers a last chance to pull up a little  
on the musketry returns, although it is  
too late now to put the Association  
where it should stand, but a fairly  
good attendance at the last practice of  
the season may induce the Department  
to give it another chance next year.  
All old members, then, who wish to  
help the Association to continue its  
existence should turn out on Monday.

To save time, members are advised  
to take lunch with them, as it will not  
be possible to have more than half an  
hour of interval between the two prac-  
tices, owing to darkness falling so  
early. A marker will be secured and  
ammunition will be free, provided that  
the free allowance has not yet been  
partly shot.

## GLENMORE NOTES

(From Our Own Correspondent)

The Company have been clearing  
land near Mr. McDougall's ranch.

Mr. Dawson's son and brother are  
paying him a visit.

Mr. Marshall is working at the  
school house.

Miss Melville has arrived from  
Scotland and is visiting at her  
brother's.

Mr. Whittam's new house is near-  
ing completion. He also has a  
good well at the depth of 100 feet.

Mr. Mayhew and Mr. Johnson have  
dug a well near their ranches.  
Water was found in abundance at  
no considerable depth.

The new school house is being  
built. Mr. Biggar is the contrac-  
tor and Mr. Westmount is building  
it.

Mr. McDougall and Mr. Leslie  
left for Scotland last Friday to  
spend the winter. They are highly  
delighted with their new home, and  
will be back early in the spring.

Potato digging is the order of  
the day. The yield is good. Nearly  
every one is putting them in pits or  
storing them in town or at Van-  
couver.

Mr. J. S. Mackenzie drew in about  
four tons of tomatoes last week,  
drawing the last load in on the 19th.  
They were practically untouched by  
frost, and were in good condition.  
This speaks well for Glenmore, as  
they were the last drawn in.

## SUNDAY SCHOOL INSTITUTE

## LIST OF ADDRESSES

Don't miss the Sunday School  
Institute to be held in the Methodist  
Church on Monday afternoon next,  
Oct. 28th. Addresses will be given  
on the following subjects:

"Vital Elements in Religious  
Education."

"The Sunday School for Adults."

"Sunday School Music Exemplified."

"The Real Purposes of the Sun-  
day School."

"The Bible Classes of America."

The last address will be illustrat-  
ed with a stereopticon lantern and  
100 beautiful slides. Solos and  
quartettes will be given.

All the children of Kelowna are  
invited to a "Children's Rally" in  
the Methodist Church at 3 p.m. We  
want every boy and girl in Kelowna  
to be at this meeting. An interest-  
ing programme is being arranged.  
—Com.

It is understood that the contract  
for the construction of the Okana-  
gan portion of the C. N. R. system  
will be let at once, and it has been  
assured by Mr. Sykes, assistant to  
the chief engineer, that the railway  
will make an endeavour to take care  
of a share in the moving of next  
year's shipments from the Okanagan.  
The work of grading will be rushed  
all along the line, and will be in  
readiness to put down the rails next  
summer.—"Kamloops Standard."

### BARNYARD MANURE

Its Importance to the Farmer

The manure problem is a fundamental problem for farmers of today and tomorrow. One of the most important lessons for them to learn is how to produce good barnyard manure; and then to care for it and use it rationally.

In many parts of Canada the manure is simply thrown away. In other places, notably in the West, it is burned; and in places where the manure has accumulated around the stables, the stables have been moved away, instead of making use of the manure. This means a great annual loss. At the present price of plant food, the amount of manure produced in the United States every year is worth nearly \$2,500,000,000. In 1909, the value of the whole corn crop in the United States was only \$1,001,000,000. These figures show the very great importance of manure production.

Value as Fertilizer

Manure is usually valued according to the amount of nitrogen, phosphoric acid and potash it contains. This method does not give any value to the humus which is a very important part of the manure. It holds moisture which aids in bringing the plant food in the soil into soluble condition and makes the soil more friable and easily tilled.

Experiments at Rothamsted, England, during fifty years on land (1) unmanured, (2) manured continually, and (3) manured during the first twenty years only, showed a gradual decrease in the crop on the unmanured soil and a gradual increase from year to year on the manured soil. When the application was stopped there was a gradual decrease, but at the end of thirty years after the last application, the yield was still double that on the unmanured part.

Sources of Loss

The greatest sources of loss are (1) the liquid portion of the manure which runs off the stables, (2) the loss of liquid by evaporation, and (3) the loss of liquid by absorption.

The liquid is much more valuable than the solid. In cow manure the total liquid portion is about the same value as the total solid portion. Yet many farmers arrange their stables to drain off the liquid. DON'T DO

IT: From \$10 to \$15 worth of fertility can be lost annually in this way from each cow kept. Use some kind of absorbing material to prevent loss of liquid.

How to Apply Manure

Where possible, the manure should be spread on the field as made. It saves handling twice, and there is a greater tonnage than at any other time. The effect of green manure will be seen for a longer time than rotten manure on account of the decomposition taking place in the soil. If this cannot be done, by all means have a covered shed where the manure is put and where it will be packed by stock tramping on it, and where it will be kept moist. If it is kept tramped and moist and if the shed has a cement floor there will be very little loss.

Experiments in the West have shown that a very light application of barnyard manure in the spring after sowing, as a top dressing on soils having a tendency to blow, gives excellent results; not only preventing blowing but giving increased yields from the added plant food.—"Conservation."

### THE CHAMPION COW

Of the British Empire

"Rosaland of Old Basing," a thoroughbred Jersey, owned by Julian Sharrman of Red Deer, Alta., has just won the title of champion dairy cow of the British Empire, producing \$1,007.50 worth of cream and milk in three years. The official figures follow: Best milking of one day, 52 pounds; one month, 1,471 pounds; one year, 15,700 pounds; three years, 37,847 pounds; butter fat, 5.16 per cent.; butter production, one year, 1,031.89 pounds; three years, 2,504.39 pounds. The cow also bore three heifers, for which the owner has refused \$2,000.

Rosalind, bred and raised in Red Deer, established Canadian records for one, two and three years, also for one month and one day. The animal produced 1,475 pounds of milk in an official test for 24 hours. She also won the title of champion of Canada in 1911. She is bred in Canada and her records are records up to the present. Second to breeding, excellent care given to the animal.

which is one of a large herd of Jersey cattle, Mr. Sharrman attributes the remarkable production to the highly satisfactory climate and feed conditions of central Alberta, where grasses are plentiful most of the 12 months of the year and the water is pure and abundant.

The Board of Trade of Red Deer gave a banquet in honour of Mr. Sharrman the evening of October 10.

### FRUIT NOTES

Continued from Page 1

Winnipeg, branches are in active operation at Calgary, Edmonton, Lethbridge, Medicine Hat, Moose Jaw, Saskatoon, Brandon and Regina, the purchase provides a splendid field in the fruit trade for the new concern.

It is also reported from Grand Forks that the same American firm has just bought out the interests of the Stacy Fruit company. This latter concern is one of the stranger in the northwest. It has done business for many years under the firm name of E. P. Stacy & Son, from Minneapolis. The former head of the firm is now dead, and the business has been carried on by his sons. The transfer of the business to the Nash Bros. would make the latter concern a very powerful and influential one in the general fruit business.

The firm of Nash Bros., which now controls a large portion of the fruit business of western Canada, consists of three brothers. One of these resides in New York and the other two in Grand Forks, where they have a large retail business as well as wholesale.

Germans Want Canadian Apples

Advice received by the Trade and Commerce department show that there will be a good market in Germany for Canadian apples. Last year some 120,000 barrels were received at Hamburg, and the conditions warrant the expectation that the demand will be fully equal to that of last year. Three large importers in Hamburg are anxious to ascertain if they can not possibly obtain a quantity of the same variety of apples of from 500 to 1,000 barrels at a time by the same route.

## CONCEIT OF BARBADOS.

A Mighty Colony is "the Little England of the Tropics."

None of the great unions of the earth is half so proud of itself as the little colony of Barbados, a mere speck in the Caribbean, which calls itself "the little England of the tropics."

Alone of all England's West Indian Isles, Barbados has belonged to England ever since it was first colonized by white men. It has never been conquered by the enemy, as the others have been. This fact naturally gives the Barbadians a good conceit of themselves and indeed makes them just about the proudest people on earth.

When, just before the Crimean war, England was hesitating whether she should attack Russia, the Barbadians sent this message to the cabinet: "Go ahead. Don't be afraid. Barbados is behind you."

King George was offered an asylum by "little England" when Napoleon Bonaparte proposed to invade England. "If you were driven from England," the Barbadians wrote, "come here. You will be safe with us to protect you."

When England was suffering her worst reverses in South Africa the Barbadians were not worried. They knew that if matters really reached a crisis "Barbados would go in and finish the business," as one of their newspapers seriously put it.

## MUSIC BATHS.

Holmes Says: They Are to the Soul as Water is to the Body.

One must be educated no doubt to understand the more complex and difficult kinds of musical composition. Go to the concerts where you know that the music is good and that you ought to like it, whether you do or not.

Take a music bath once or twice a week for a few seasons and you will find that it is to the soul what the water bath is to the body. I wouldn't trouble myself about the affectations of people who go to this or that series of concerts chiefly because it is fashionable.

Some of these people whom we think so silly will perhaps find sooner or later that they have a dormant faculty which is at last waking up and that they who came because others came and began by staring at the audience are listening with a newly found delight.

Every one of us has a harp under the bodice or waistcoat, and if it can only once get properly strung and tuned it will respond to the harmonies.—Oliver Wendell Holmes.

"Over the Top" is the title of a new musical comedy.

"That's nice of you, uncle," said Andy, "but I'm having some hard luck now, and if you could advance me something it certainly would be helpful."

"Here was the opportunity of the uncle, always on the lookout for a bargain, so he said, 'Suppose I give it all to you now, how much of a discount will you make me?'—Indianapolis News.

## Could Not Do Without Him.

Henry Austin was slow. His work was always behind that of the neighboring farmers, although he was always got it done eventually. He had been courting Jennie Blake for five years, and at last they were to be married at her home in the Stumpfield district, two miles from his farm. On the evening on which the event was to take place his neighbors, the Posters, drove by his house on their way to the wedding. Henry was just going to the barn with his milking pail. Mr. Poster shouted: "Where are you, Henry? I should think you would have been there long ago."

Henry, equal to the occasion, responded in his slow drawl: "Waal, I guess they won't do much business 'fore I get there."—Youth's Companion.

## Pulling Power of Men and Animals.

Interesting tests were recently made to determine the respective pulling power of horses, men and elephants. Two horses weighing 1,600 pounds each together pulled 3,750 pounds, or 550 pounds more than their combined weight. One elephant weighing 12,000 pounds pulled 8,750 pounds, or 3,250 pounds less than his weight. Fifty men, aggregating 7,500 pounds in weight, pulled 8,750 pounds, or just as much as the single elephant; but, like the horses, they pulled more than their own weight. One hundred men pulled 12,000 pounds.

## Paternal Pride.

"Does your boy Josh stand at the head of his class?"  
"No," replied Farmer Cornstossel, "but he could if he wanted to. If Josh took it into his head to stand at the head of his class or anywhere else it 'ud take a whole football team to pry him loose."—Washington Star.

## Uplift.

"Is there any uplift about this new writer?"  
"You bet there is! He writes aviation stories."—Baltimore American.

He that never tasted pain is no judge of pleasure.

## CROP REPORT

For September

A bulletin issued last week by the Census and Statistics Office covers the crop conditions in Canada for the month ended September 30. It states that during this month disastrously wet weather continued to prevail over most parts of Canada, especially over the provinces of Quebec, Ontario and Manitoba. At September 30 large areas of grain, both in the East and West, were exposed to the wet in stock. Much damage has been caused by sprouting and in the Northwest provinces second growth has in numerous instances caused uneven ripening and consequent lowering of the grade. For example, during September in those provinces did some damage; but as a rule only late sown crops including flax, were seriously affected. In parts of southern Ontario the ground is so wet that many farmers have abandoned the sowing of fall wheat for next year.

The estimates of yield published a month ago could only be regarded as of preliminary value, because in consequence of the bad weather and late season harvesting operations had made so little progress.

The new estimates of yield obtained from correspondents at the end of September confirm generally the previous estimates for most of the crops, but inasmuch as very little threshing had been possible and large areas of grain were still unharvested, it is feared that the final estimates, after completion of the threshing, may turn out lower than the figures now given.

For spring wheat the estimated production is 188,816,000 bushels as compared with 189,004,500 bushels last year. For fall wheat the estimate is 10,805,700 bushels compared with 26,014,000 bushels last year, the total estimated wheat production being therefore 205,625,300 bushels as compared with 215,018,500 bushels in 1911. The increase of 9,606,800 bushels, or 4.7 per cent, shows a total production of 381,000 bushels compared with 345,000 bushels last year, the yield per acre being 41.69 bushels compared with 37.70. Barley is estimated to yield a total of 43,549,000 bushels compared with 40,681,000 bushels last year, the yield per acre being 31.00 bushels against 28.94. The total production of rye is 3,086,000 bushels against 2,663,800 bushels in 1911, the yields per acre being respectively 20.75 and 17.41. Oats, barley and rye increases in total production as compared with last year are percentages of 9, 8 and 15. The estimated production of peas is 4,202,400 bushels, or beans 1,100,800 bushels, of buckwheat 10,244,100 bushels, of flaxseed 21,143,400 bushels, or mixed grains 17,940,100 bushels, and of corn for husking 14,218,400 bushels.

The average quality of these crops at harvest time, measured upon a per cent basis of 100 as representing grain well headed, well filled, well saved and unaffected to any appreciable extent by frost, rust, smut, etc., is as follows: spring wheat 83.70, oats 86.01, barley 84.48, rye 80.82, peas 66.41, beans 68.81, buckwheat 80.87, mixed grains 90.59, flaxseed 83.86 and corn for husking 71.92 p. c. Of these crops wheat, oats, barley and flaxseed are above, while peas, beans and corn for husking are below the average quality for either of the two previous years. Rye is slightly below the average. Flax is well above the quality of both 1911 (75 p. c.) and 1910 (73 p. c.).

Root crops continue to show excellent figures as representing average condition during growth. The highest are potatoes 90.12 p. c. and the lowest corn for fodder 80.63 p. c. The last named crop has improved by over 4 points during the month.

## ELECTRIC RAILWAYS

For Edmonton

Three hundred miles of electric railways, connecting Edmonton with numerous towns, coal mines and gravel deposits, grain and dairy districts, brick, concrete and other manufacturing plants in central Alberta, will be built by the Edmonton Interurban Railway company. George Barbey of Paris and Vancouver, head of a French syndicate, which has already invested more than \$10,000,000 in Canada, is president. The company, incorporated under the laws of the Province of Alberta, is financed by French and Canadian investors.

The first unit of the system, upon which grading work is in progress, will be from the city limits of Edmonton to St. Albert, six miles. Steel will be laid the coming winter and the line placed in operation for passengers, express and freight traffic by June 1, 1913. The initial equipment will be 12 60-passenger coaches and 50 freight and coal cars. The power house, to be erected at Albert, will be of a capacity to operate 28 miles of road. M. Kimpe, managing director of the company, has charge of the construction work.

Other lines projected are: Edmonton to Beaver Lake and Tofield, 40 miles; Edmonton to Vegreville, 40 miles; Edmonton to Lac Ste. Anne, 56 miles; Edmonton to Namay, 12 miles; Edmonton to Mewasin, 45 miles; Edmonton to Pigeon Lake, 40 miles; and a line from Edmonton to Morinville by way of St. Albert, 28 miles. Mr. Kimpe has announced that construction work on these units will begin early next year and be rushed to completion, regardless of what course the municipality of Edmonton may follow with its contemplated system of interurban lines.

## City Realty Mart

A wrestling contest between Ed. Toler, the American heavyweight, and Brown, a wrestler who has been in Vernon for a short time, will take place to-night in Vernon. The match will be refereed by "Bob" Sutherland, the Kelowna wrestler, who has been requested to handle the third man's end. Probably a number of Kelowna fans will go up to see the bout.

## The Toler-Sutherland Match

Up to date the time for the Toler-Sutherland match has not been definitely arranged, but it will probably be about Nov. 6, in the Kelowna Opera House.

Sutherland is getting into good shape with strenuous evening workouts, and his wrestling partners cannot complain of lack of action. They get all kinds of it, and are rapidly increasing their knowledge of anatomy under the beneficent training afforded by the application of toe holds, hammerlocks, scissors and the various other pleasant embraces known to "wrestlers."

Mr. Toler, whose photo is reproduced below, will no doubt also be undergoing hard conditioning for the match, and a splendid exhibition of skill and power may be expected when the two men meet in this city.

Municipal Voters' List 1913

Notice is hereby given that the Voters' List of the City of Kelowna, for the year 1913, is being prepared.

The following are the qualifications required for municipal voters:

1. AS AN OWNER: Any male or female British subject of the full age of twenty-one years possessing an estate for life or of inheritance (in possession) in lands within the corporate limits of the City, provided such person is the registered owner of such estate in the Land Registry Office, and provided said estate is of the assessed value of not less than One hundred dollars.
2. AS A PURCHASER: A purchaser under an Agreement of Sale duly registered in the Land Registry Office shall, together with the owner of the property mentioned in the said Agreement of Sale, be entitled to have his or her name entered on the Voters' List, but the registered owner of the property alone shall have the right to vote unless he or she shall on or before the day of election, by writing under his or her hand, waive or renounce his or her right to vote, in which case the registered purchaser under such registered Agreement of Sale shall be entitled to vote, provided he or she has all the requisite qualifications of a voter.
3. AS A LICENCE HOLDER: Any male or female British subject of the full age of twenty-one years who is the holder of a Trade Licence, the annual fee for which is not less than Five Dollars.
4. AS A HOUSE HOLDER: Any male or female British subject of the full age of twenty-one years who occupies a dwelling house, house, tenement, hotel or boarding house, who has been a resident of the City from the first day of January of the current year, and who has paid directly to the City, all rates, taxes and assessments which are not chargeable on land, which rates, taxes or assessments so paid amount to not less than Two Dollars, due to the City for the current year, other than water rates or taxes or licence fees for dogs.

Licence-holders and House-holders must, during the month of October, 1912, make and cause to be delivered to the City Clerk a statutory declaration which must be filed within forty-eight hours after same is made. No declaration can be filed after 5 p.m. on Thursday, October 31st, 1912.

Forms of declaration may be obtained from the undersigned.

G. H. DUNN,

City Clerk.

Kelowna, B. C., October 1st, 1912. 10-4

## Kelowna Land & Orchard Co. Limited.

We have for sale lots on Abbot Street, five minutes walk from the C.P.R. and one minute from the Park. These lots are the "very thing" for the man who has to live in close touch with his work in the town, yet who desires to have a home with the attractions of shade in summer and shelter in winter. There is also easy access to the Lake and its sandy beach for recreation.

The lots have sixty feet frontage on Abbott Street, by 100 to 120 in depth, and are on sale only through the agency of our City office.

We wish to get into touch with the intending purchaser and discuss prices and terms.

Phone No. 5.

Office: BELGO-CANADIAN BLOCK

## Local and Personal News

Mr. L. Budden returned on Monday to Vernon.

Mr. J. Bowen returned on Tuesday from McLeod, Alta.

Mr. F. Fraser returned on Tuesday from a business trip to Calgary.

Dr. Hulse returned on Tuesday from Alberta.

Mr. and Mrs. Lelroy Dolsen left on Wednesday on a trip to G. I. don.

Mr. Sidney Clark returned on Tuesday from Vancouver.

The Kelowna Land & Orchard Co. have moved their offices to the upper floor of the Belg.-Canadian Block.

Mr. and Mrs. J. U. Dunn left on Monday for the Upper Columbia Valley, where they will take up residence, near Invermere.

Rev. S. J. Greene, of Armstrong, will preach in the Methodist Church next Sunday morning and evening. The offertory will be devoted to the City Hospital.—Com.

Good houses have greeted the Gladstone Vaudeville Company every night this week in the Opera House. There is a complete change of songs, dances, costumes, pictures and acrobatic work every night.

"The Missouri Girl" a high class comedy of the better sort, will be at the Opera House on Thursday, Oct. 31st. They say it's so funny you'll laugh between the acts.—Com.

Dreamland will offer a special Thanksgiving day programme on Monday afternoon and evening. A selected programme of feature pictures will be shown and the special attraction will be Frank Gordon, Comedian, late of Daly's Gaiety and Prince of Wales Theatre, London.—Com.

Rev. T. Albert Moore, General Secretary of the Social and Moral Reform Branch of the Methodist Church of Canada, will be in Kelowna on Wednesday, October 30th, and will address a public meeting in the Methodist Church on the work of his department, at 8 p.m. The public are cordially invited to be present.—Com.

"Beano" McLean, the local boxer who aspires to meet "Cyclone Scott" in the near future, has secured a new sparring partner in the person of "Sport" Keller, generally known as the "Battler," who hails from the Coast. The Battler is expecting to secure a match in the near future with Jimmy Mofton, the well-known Nanaimo mitt wielder, so his workouts with McLean are worth seeing. The pair went ten fast rounds on Monday evening at their training quarters on Ellis St., and both appear to be in very good shape.

The Kelowna Garage and Machine Works Company has been gazetted as a limited liability company, with a capital of \$50,000, divided into 500 shares, for the purpose, amongst others, of carrying on "the business of manufacturers or dealers in, letters to hire, repairs, cleaners, storers and warehousemen of automobiles, motor cars, commercial trucks, motor cycles, bicycles, motor buses, fire-engines, tram cars, railway cars, velocipedes, carriages, aeroplanes, motor vessels and boats and vehicles of all kinds, whether moved by mechanical power or not."

Kelowna can win prizes for other things than fruit. At the recent Terminal City Dog Show in Vancouver, which, according to the Coast papers, has been the most successful ever held, Mr. Eric Dart cleaned up both the limit and the open classes with his smooth-haired fox terrier puppy "Stonehenge Sportsman." Taking into consideration the keen competition among dog fanciers at the Coast and the high prices paid for imported dogs, this is a notable victory. His owner bred not only "Sportsman" but also his sire and dam, and until the dog left for the Coast he was running rough on the ranch and never had a collar or chain on his neck.

The rifle range has frequently suffered from the visits of selfish "fools-with-a-gun" who have destroyed the property of the Rifle Association without one thought or regret for the inconvenience and annoyance they were causing, and the latest form their idiotic and malicious mischief has taken is to pepper the targets with a shot-gun, presumably because they could not hit them with a rifle. It took half an hour last Thursday to put the targets in condition for shooting, and the loss of time in the all too brief afternoon was most exasperating. At that, the targets were so badly perforated with soft-nosed bullets that they could not be put in really good shape. 'Tis a strange temperament that finds its happiness in spoiling the sport of others.

Mr. and Mrs. J. L. Dobbin were arrivals from the Coast on Monday's boat.

Mr. F. A. Taylor left for Vernon on Wednesday.

Mr. C. Phinney left for Vernon on Tuesday.

Mr. D. W. Crowley was a visitor to Vernon yesterday.

Mr. A. B. Campbell came up from Penticton on Tuesday morning.

Mr. E. F. Carlson, of Vancouver, was an arrival in Kelowna on Monday.

After a brief visit in town, Mr. A. F. Sellick returned on Tuesday to his home in Lookport, N. Y.

Mr. Lionel Taylor left on Tuesday morning for Vernon, to attend the Apple Show.

Mrs. O. B. Holden returned on Monday to Peachland, after a short visit to friends in the city.

BORN.—On Sunday, Oct. 20, to the wife of Mr. A. C. Purdy, a daughter.

BORN.—To the wife of Mr. R. W. Carruthers, K. L. O. Bench, on Oct. 18, a son.

The Kelowna Study Club will meet next Tuesday night, at 8 o'clock, at the residence of Mrs. F. Armstrong.—Com.

Mayor Jones and City Clerk Dunn left on Monday morning for Revelstoke, where they are attending the annual meeting of the Union of B. C. Municipalities.

Mr. R. Duncan went up to Vernon on Wednesday to join his old comrades in the Vernon F. B. Band for a day, on the occasion of the visit of Premier McBride to open the Apple Show.

Mr. J. Bouch, formerly of Kelowna, is paying a visit to town, and may remain for the winter, if he does not decide to go to the States. Lately, he has been resident in New Westminster.

The Epworth League of the Methodist Church are having a masquerade at the home of Mr. W. Fuller on Thursday evening, Oct. 31. Programme and refreshments will be in keeping with "Hallowe'en".—Com.

Next Monday being Thanksgiving Day, the regular monthly meeting of the Ladies' Hospital Aid will be held on Tuesday, Oct. 29, at 3 p.m., at the home of Mrs. C. Blackwood. All members are requested to attend.—Com.

Eleven cases were dealt with in the Police Court last week, most of them being of the D. & D. variety. One first-time married the peaceful monotony of the list. The police force will possibly be increased next month by an additional night constable.

Mr. A. E. Disney, Seattle agent for the International Mercantile Marine Lines, paid a visit to town on Tuesday. The International Mercantile Marine Lines comprise the steamers of the American, Atlantic Transport, Dominion, Leyland, Red Star, White Star and White Star-Dominion companies.

"The B. P. Little Construction Company" has been gazetted as a limited liability company, with a capital of \$10,000, divided into 10,000 shares. The head office of the company is stated as at Kelowna, and the objects for which it has been incorporated are to manufacture cement and concrete blocks, bricks, tile and cement pipe.

"The Versatiles," who performed in the Opera House on Saturday night before a large audience, quite came up to their advance notices, and the entertainment they gave was satisfactory in every respect, being vaudeville of the type produced in the best music halls in the Old Land, devoid of vulgarity and brimful of humour and good singing. The merit of the performance helped to take from the palate of playgoers the bad taste left by the frost yelet "Managing Mildred."

### BUSINESS LOCALS

(Rate: 3 cents per word, first insertion; 2 cents per word, each subsequent insertion. Minimum Charge: first insertion, 50c; each subsequent insertion, 25c.)

Each initial, abbreviation or group of figures counts as one word.)

Dr. Mathison, dentist, Telephone 89. A quantity of miscellaneous household furniture will be sold in the yard near the Kelowna Saw Mill Co.'s office, Bernard Ave., on Saturday next, at 2.30.

**NEWS OF THE DOMINION**

The net debt of the Dominion at the end of September was \$313,508,376, a decrease of \$3,016,976 during the month and a decrease of over \$10,000,000 as compared with the debt on September 30 last year.

There is some authority for the report that within two years the Standard Oil interests will have millions invested in South Alberta. The rumor is that Rockefeller interests are getting options on rich coal, oil and gas lands, and are behind the Western Railway now being surveyed and planned to come in from Montana and serve western and northern Alberta. It is also stated that the Amalgamated Copper Company is securing options on Alberta coal lands.

Every effort is being made to prevent a grain blockade. In addition to the steps being taken to keep navigation open as long as possible at the head of the lakes, and the fact that the National Transcontinental is being rushed to completion, the carrying equipment of the Intercolonial railway, is being largely increased. Heavy addition to the rolling stock has been made all spring

and summer, and this fall large new orders of both cars and engines have been made. With this new equipment the government will be in a position, if necessary, to place its own rolling stock on the National Transcontinental between both Winnipeg and Lake Superior Junction and Cochrane.

Extra gangs of rough carpenters and concrete layers are working by electric light in burning to completion several large store, office and warehouse buildings in Edmonton, the contractors taking advantage of the Indian summer weather. The largest crew is at work on the Revillon Wholesale company's \$250,000 warehouse in the business district, where an electric lighting plant has been installed to lengthen the day. Night work is also being pushed on the McLeod building, costing \$500,000, and numerous other structures ranging in cost from \$1,000,000 to \$2,000,000. It is planned to finish the concrete work before the frost comes in November. There is no Sunday work in Edmonton nor throughout Alberta and Canada, hence the contractors and builders are taking advantage of every hour of the remaining six days of the week.

H. J. Ferguson of Calgary, returned last week to Edmonton from an automobile trip of 1,800 miles in the north country, being the first to drive a machine into the Peace River district, going as far as Grouard, Alta., at the head of Lesser Slave Lake. Though he followed the trails on the prairie, once the stamping grounds of fur-traders and great herds of buffaloes, he met with no mishaps. He carried gasoline and supplies for the entire trip on the car. The best day's run was from Grouard to Dunvegan, 108 miles, the lowest being 90 miles in seven hours. Mr. Ferguson brought with him to Edmonton samples of ripe tomatoes and corn, grown at High Prairie and Grouard, which are both thriving, though handicapped by the non-delivery of building materials. He reports also that the Athabasca and Slave Rivers are low and that steamer traffic is being held up for the present.

**NEWS OF THE WORLD**

A compulsory system of military training for New Zealand is now practically assured.

William Marconi, the inventor of wireless telegraphy, suffered the loss of his right eye on Friday as the result of an operation following an automobile accident.

The torpedo boat destroyer H.M.S. Hardy has been launched. She is the first naval vessel to be propelled by a combination of steam turbine engines and a Diesel oil engine.

The news that, following upon protracted negotiations, the Freemasons of the world propose to rebuild the Temple of Solomon at Jerusalem, has aroused much sentimental interest in Jewish quarters.

**MORTGAGE SALE**

Under and by virtue of the Powers of Sale contained in a certain indenture of mortgage which will be produced at the time of sale, there will be sold on the First day of November at eleven o'clock of the forenoon by J. C. Stockwell, Auctioneer, Kelowna, in the Province of British Columbia, the following lands, namely:—

ALL AND SINGULAR that certain parcel or tract of land and premises, situate, lying and being in the City of Kelowna in the Province of British Columbia and known and described as that portion of Lot Two (2) in Block three (3) marked "A" and coloured green in the plan annexed thereto, and bounded as follows:—Beginning on Pendozi Street at the South-East corner of said Lot two; thence north 64 degrees, 30 minutes West (mag.) along Pendozi Street forty-five (45) feet; thence North 25 degrees 2 minutes East (mag.) one hundred and twenty-five (125) feet to Mill Creek, being the point of commencement; Beginning at the point of commencement thence South 25 degrees 2 minutes West (mag.) one hundred and twenty-five (125) feet to Pendozi Street; thence North 64 degrees 30 minutes West (mag.) along Pendozi Street seventy-five (75) feet; thence North 25 degrees 2 minutes East (mag.) two hundred and twenty-two and eight tenths (222.8) feet to Mill Creek; thence along the borders of Mill Creek to the point of commencement, containing twenty thousand five hundred and fifty square feet (20550) more or less.

The terms and conditions of sale will be made known at the time of sale.

For further particulars apply to Messrs. Burne & Temple, the Vendor's Solicitors, Bernard Avenue, Kelowna, B.C.

Dated this 21st day of September, 1912.
